ADDITIONAL RESOURCES

Item 3: Understanding Cancer

You would have noted the importance of the diaphragm when determining the stages of cancer. We have found a great resource on the significance of the diaphragm which we feel would be very beneficial for you know. We have uploaded a link to a video on the diaphragm and a pdf document in the Trainee section of the Portal.

There are also a further 2 additional videos on Cannabis and Cancer, Part 1 and 2 in the Portal which we'd also encourage you to watch. You can find them in the Training Resource videos
